DARING AVIATOR TRIES TO CLIMB 40,000 FEET

Fell Five Miles When Machine Regained Its Balance, and He Landed on McCook Field

Attains Height of 37,000 Feet When His Supply of Oxygen Ran Out and He Became Unconscious

(By United Press)

Dayton, O., Feb. 28.—"I'll make it the next time," said Major R. W. Schroeder, following his narrow escape from death when his plane fell five miles after nearly reaching 40,000 feet altitude. Major Schroeder landed in the McCook experimental field.

Officially credited with ascending 36,020 feet, he stated that upon reaching what he thought was about 37,000 feet his supply of oxygen ran out and he became unconscious. The machine fell five miles and the gas tank, unable to stand the sudden changes in air density, was crushed like an egg shell.

Major Schroeder regained consciousness when two miles above the earth and effected a landing. He was unable to speak.

Later he said: "If my main supply of oxygen in the large tank had not failed to function I would have reached 40,000 feet altitude, but I'll make it the next time. I was going good and the engine was working good and in two hours more I would have made it. Then came the failure of oxygen and the heavy gas raised by the exhaust."

When he recovered at the hospital he cried: "What is the matter with my eyes?"

"All at once the oxygen stopped flowing," said Major Schroeder. "I turned the cock wide open, but no oxygen came from the main tank. I had been using up my emergency supply. I raised my goggles which were thickly coated with ice. Then came what seemed an explosion in my head. My eyes hurt terribly. There was an awful rush of air and I knew I was falling."

"Following the downward plunge the ship rode easily again, but the ground was nowhere to be seen. I opened my eyes to a narrow slit and seemed to be close over a hangar. I tilted the machine for a climb as I figured to leap to the ground in my parachute."

"I saw McCook field and like an automaton, with no voluntary action on my part as I was still planning on a jump with the parachute, I landed in McCook field."

Pershing Name on Michigan Ballot

(By United Press)

Lansing, Mich., Feb. 28.—The name of General John Pershing will appear on the Michigan primary ballots it was announced at the office of the secretary of state today.

Petitions containing the required number of signatures were signed by citizens of Port Huron.

Crime Increased in Minnesota

St. Paul, Feb. 28.—Crime apparently increased in Minnesota following the war. The state board of control announced the commitments to state prison and reformatories was 78 per cent higher in 1919 than in the year 1918. Insane patients decreased 771 in the same period noted.

Sadly Incomplete.

A deed dated March 15, 1807, recently recorded on Long Island, conveys the Valentine farm on the highway leading from Jamaica to Great Plains on the Jericho turnpike, thence to the highway leading from Little Plains to Rocky Hill, including the buildings, orchards, gardens, meadows, commons, seedlings, trees, woods, paths, water and water courses," but gives no other description of the property or any indication of its size, and nobody knows what it is.

This photograph was taken on the arrival in New York from Europe of Captain Victor Dibosky, who invented the synchronizing device for firing machine guns between the blades of airplane propellers and perfected a mechanism for increasing machine gun fire from 400 to 1,200 shots per minute. He has been decorated by several governments, including Russia and Great Britain. He is here on a visit to his wife and children.

Oklahoma Ratifies Woman's Suffrage

Oklahoma is the Thirty-Third State Ratifying—Only Three More Needed

(By United Press)

Oklahoma City, Feb. 28.—The Oklahoma legislature today completed ratification of the woman's suffrage amendment to the federal constitution. Ratification will go into effect immediately with the restoration of the emergency clause by the house of representatives, before finally passing the measure.

Oil Leasing Bill of Public Benefit

Secretary Lane Explains How It Should Reduce Living Costs and Benefit the Public

(By United Press)

Washington, Feb. 28.—Secretary Lane, who retires Monday from the interior department, shows how the oil leasing bill in a statement written for the United Press.

The general leasing bill just approved by President Wilson should be a vital factor in reducing living costs, for it will affect the production of coal, oil, gas and phosphates for fertilizers.

The production of these will be vastly increased by throwing open lands containing such oil and minerals. Any citizen or man from a country extending like reciprocity will be permitted to prospect on land and secure a lease to remove mineral wealth in return for a royalty paid the government.

From \$9,000,000 to \$10,000,000 is expected to accrue to the government in royalty. There are approximately 30,000 acres of oil lands, 40,000,000 acres of coal and 2,500,000 acres of phosphates.

Offers Unborn Baby for Adoption

(By United Press)

San Francisco, Feb. 28.—Poverty today forced Mrs. Allen Luhrs to offer her unborn baby for adoption. Deserted by her husband and struggling to keep herself and little son, Mrs. Luhrs, scarcely 22, was forced to take this course.

"I could not leave my child on a doorstep because where my baby goes there must be a welcome for it. I want it taken as soon as it is born. I am afraid to love it. I might not be able to give it up."

Engine Explodes Injures Fireman

(By United Press)

Madison, Wis., Feb. 28.—Arthur Clay, Chicago & Northwestern railway fireman, was badly burned and otherwise injured when his engine exploded. He was hurled through his cab when the accident occurred near Madison.

C. Humphrey the engineer, escaped injury.

Must Back up Business Men

Berlin, Feb. 28.—Economic relations between the United States and Russia cannot exist unless the Washington government will agree to back up its business men, Victor Kopp, soviet agent, declared in an interview today.

Kopp is in Berlin attempting to bring about trade agreements between Germany and Russia. He said he was fully authorized to speak for his country.

Condemn Anarchistic Tendencies

In Instructors in Educational Institutions in Resolution Passed at Their Convention Today

(United Press)

Minneapolis, Feb. 28.—Minnesota editors, assembled in Minneapolis today, passed a resolution urging dismissal of instructors of radical and anarchistic tendencies in educational institutions of the country.

They also asked that text books be examined carefully before being used in Minnesota schools and that no insidious propaganda or immoral reading be allowed.

The resolution said there is danger in the insidious propaganda upon our one American principle and that their effect should be kept out of the schools.

A resolution deploring the present political situation in Minnesota made possible by the present primary law was passed this morning.

It urged that change in the primary law be made so that "political parties be identified and solidified."

Three hundred editors are attending the convention at the West Hotel. The convention closes tonight. A committee was appointed to cooperate with jobbers, manufacturers, retailers and consumers in advertising matter. The editors adopted a resolution insisting upon curtailment of Sunday editions of metropolitan newspapers.

Kellogg Charges Democratic Alliance With Bitter Enders

L. C. MARTIN

(Staff Correspondent United Press.)

Washington, Feb. 28.—Senator Kellogg of Minnesota has charged Senator Hitchcock with forming an alliance with the "bitter enders" to defeat the treaty.

Hitchcock, said Senator Kellogg, is trying to kill the treaty with democratic help, and if that cannot be done, then with republican aid. Kellogg charged further that Hitchcock had allied himself with Senator Borah.

"I congratulate the senators on their alliance," said Mr. Kellogg. "I hope they get all the pleasure they can out of the association."

Three Children Burned to Death

(By United Press)

New York, Feb. 28.—Three children under five years of age were burned to death when fire destroyed the home of Joseph Mager on the outskirts of New York City early today. The parents had left the house early to work on a farm. Three other children were rescued by neighbors who broke down the door.

Woman Deputy Sheriff
Who Uses Airplane to
Catch Auto Speeders

Miss Hazel Riley, of Oakland, Cal., is a deputy sheriff. She is the only woman officer of the law in the United States, if not in the world, who uses an airplane in the discharge of her official duties. She is seen here in the costume she wears when traveling in her aerial "patrol wagon," as she calls her plane. One of her chief duties is to keep watch for automobile speeders.

American Citizen Killed in Mexico

The United States Has Called on Mexico to Arrest and Punish Murderers

(By United Press)

Washington, Feb. 28.—Augustus Morrill, an American citizen and former consul at Manzanillo, Mexico, was killed by Mexican bandits Feb. 25, the state department has been advised.

The United States has called on Mexico for the arrest and punishment of the perpetrators of the deed. The children of the slain man live in California.

Morrill was appointed vice consul at Manzanillo January 1919, and consul on August 5, 1922.

The state department has been advised further that B. Hoggarthy, another American citizen, recently kidnapped by bandits, had been returned to his home.

Fine Weather For Races

Los Angeles, Cal., Feb. 28.—There were indications here that ideal weather will prevail for the 250 mile automobile race scheduled for 2 o'clock today at the opening of the Los Angeles speedway.

U. S. Will Recognize Soviet Russia in the Near Future

RAYMOND CLAPPER
(United Press)

Washington, Feb. 28.—Recognition of Soviet Russia by the United States in the near future is predicted by Senator Hitchcock and other leaders of the senate.

Senator Borah predicted recognition of Russia by the allies within a being rapidly brought to a climax ten days. On all sides the situation by the feelers which Russia is sending out.

There is a resolution in committee on the Russia situation, but the leaders prefer giving the administration a free hand in the matter.

Premiers Never Intended to Act Without U. S. Consent

London, Feb. 28.—The Franco-British premiers never intended to act finally in the Adriatic argument until consulting the United States.

The reply agrees with Wilson's course as pronounced in his last note. It expressed a willingness of the council of premiers to withdraw proposals made, and states further that the absence of the American representatives has proved an unsurmountable obstacle.

Italy, because of the military situation at the time it joined the allies, was given certain promises regarding the Adriatic. The premiers again pointed out that Italy and Jugo-Slavia failing to come to terms, all concerned will have to fall back on the London pact.

Hitchcock and Borah Confer

Washington, Feb. 28.—Democratic leaders in the senate commented on the split developing over the ratification of the peace treaty. There will ensue, it is reasoned, a division which will make it an issue in the campaign. It was further argued that the C. O. P. will hasten to patch up the matter.

This is how the democrats figure it out. Ratification will fail. The republican "bitter enders" will go to the Chicago convention fighting for a plank protesting against American participation in the League of Nations.

The split in the republican party will force Lodge and his party it was reasoned, to submit a compromise to which the democrats can agree.

Senator Hitchcock and Senator Borah have been in conference, the latter a leader of the "bitter enders."

Wilson Will Decline Premier's Proposal

(By United Press)

Washington, Feb. 28.—President Wilson will not accept the invitation of the French and British premiers to abandon all previous Adriatic agreements and join in a new proposal to Italy and Jugo-Slavia it was predicted on good authority today.

The premiers' invitation was given in the note which reached Washington yesterday, it was announced.

(By United Press)

St. Paul, Feb. 28.—When officials and employees of the United States railroad administration in the northwest quit work at noon today they did not know whether they would be working under federal or private management when they return to work Monday morning. Instructions have been issued to all federal administration officers and employees to report to their respective departments for private employ Monday. When notice of the signing of the railroad bill had not been received at noon, officers both federal and private, expressed condemnation over the delayed action. There was a question regarding the legal status of the bill, if it was not signed today. It also was considered a legal aspect of the situation should the bill be signed Sunday or later. March 1 is specified as the date of return of the roads to private owners.

Chicago & Northwestern Withdraws From Government Operation

Chicago, Feb. 28.—The first big change in railway control was the withdrawal of the Chicago & Northwestern railway company from government operation.

Railroad Construction Boom Predicted

(By United Press)

Chicago, Feb. 28.—A railroad construction boom is being forecast by railroad officials today. This boom officials said, is bound to come as soon as the roads are returned to private ownership.

Striking Men Say They Will Not Countenance the Destruction of Property—Troops Ordered to Paris

BY HENRY WOOD

(United Press Staff Correspondent.) Paris, Feb. 28.—The strike order of the National Federation of Railway Men was announced today, effective immediately and concerning all railway men in France.

Officials of the men say sabotage under no conditions will be countenanced. Nevertheless the government has ordered troops to Paris to preserve order.

The government has announced it will fight the railway strike to a finish.

3 1/2% Beer Makers Will be Prosecuted

Federal Prohibition Commissioner Given Notice to Jersey Legislators of Intended Action

(By United Press)

Washington, Feb. 28.—Any manufacturers of 3 1/2 per cent beer will be proceeded against by the government. This came out in a statement made by Daniel C. Roper in which he issued the warning that such would be the course of the government if the New Jersey legislature passed a law permitting manufacture of 3 1/2 per cent beer.

Martin McDonough is Exonerated

(By United Press)

Iron River, Mich., Feb. 28.—Martin McDonough, state's attorney, who defied federal prohibition officers in the "comic opera rum rebellion" in Iron county, was vindicated by officials who continued the investigation into the affairs, according to reports here today.

The investigations were continued by R. R. Cummero, head of the department of justice in this district, and J. E. Conners, assistant Michigan attorney.

"About Face!" on Snow-Shoes Easy for These Canadian Soldiers

"About Face!" is not an easy order to obey when the soldier is on snowshoes but it can be done with precision was demonstrated recently by thirty men of the Royal Canadian Garrison Artillery, stationed in the

old citadel in Quebec. During the war Canadian soldiers were kept so busy in France that they forgot all about snow-shoes but practice brought back their old skill and Quebec's Winter Carnival crowds watched

them go through a number of difficult evolutions. The photograph shows them marching through the open space at the top of the Citadel, 260 feet above the St. Lawrence River.

WOMAN'S REALM

THEY TOOK HER LITERALLY

But Probably Musical Comedy Star Did Not Mean Just What She Threatened.

A popular musical comedy star was taking her summer vacation in a New England village this year, and good naturedly agreed to participate in an "entertainment" to be given at the town hall for the benefit of local charities. She procured from New York one of the costumes from her last winter's show, and a fetching poster showing herself in that same costume. Soon after the poster was on display a delegation of village ladies waited upon the committee of gentlemen who were engineering the entertainment and protested against the costume of the poster, which was, in fact, that of the conventional "prince" of musical comedy, with a frank if pleasing display of silk-encased limbs.

"Let's send for Miss de Lancy and see if we can't fix it up," a committee member suggested, and this was done.

Now, besides being good natured, Miss de Lancy is high-spirited, and rather thought that the costume which had been good enough for her to appear in for some hundreds of times in New York would do for one appearance in Hicksville.

"There is no use talking," she announced with decision, "I'll appear in that costume or nothing!"

There was a moment of horrified silence, then quick whispering among the lady delegation, and a moment later their protest against the proposed costume was withdrawn.—Philadelphia Ledger.

COSTS MONEY TO RUN ZOO

Pets of Londoners Are Really Expensive Propositions in the Feeding Line.

How much does it cost now to feed an elephant for a year? Two thousand dollars, say the officials of the London zoo. And a giraffe costs half as much. So that, with the increased prices of food, have come new problems for the keepers of menageries. The meat foods include beef, horse flesh, guinea pigs, rats, cats, mice, rabbits, frogs, snakes, fish, pigeons, ducks, sparrows, gentles, snails, ants and cod liver oil. The gazelles, buffaloes and antelopes must be provided with rock salt. They are fed on oats, bran, hay, green clover, together with carrots and potatoes. The birds are the most difficult to feed satisfactorily. Flamingoes, for instance, require soaked wheat, boiled shrimps and fish cut small. Some birds are fed largely on bullock's liver. This is cut into slices, boiled, then put through a mincing machine. The mince is dried in a slow oven and preserved. The dry mince is usually mixed with bran or pollard. Quantities of insects have to be kept in stock for the insect-eating birds. These are principally meal worms and gentles, which is the polite name for meat maggots. But for some birds flies and grasshoppers are required. The monkeys require fruit, such as bananas and apples, while the snakes must be fed on small animals, such as rabbits, mice and rats.

New Idea in Storing Coal.

The ingenious plan of storing coal in carbonic acid gas, as undertaken at Dortmund, Germany, gives the safety from spontaneous ignition of under water storage, while the container offers the convenience of the overhead bunker. Each of the three cylindrical bunkers constructed, with a capacity of 2,500 tons, has semi-spherical top and bottom, and three filling openings at the top, with three discharging outlets at the bottom. The lower outlets are gas tight when closed, but as the carbonic acid is much heavier than air the upper openings do not require being absolutely leak proof. A grab on a structural steel tower unloads the coal from a barge. The coal is dropped into a small hopper, and then fed to a push-plate conveyor, which is so placed that it may serve in filling or emptying the three bunkers. The small amount of carbonic acid gas that leaks out in removing coal can be readily replaced.

Fun for the Girl.

One evening, coming home from the theater on the street car with my lady friend, I stepped from the car and noticed an automobile coming up behind the car. I kept my eye on the automobile and took the elbow of the next person alighting after me, expecting it to be my friend. Still watching the motor, I led the elbow safely to the walk, and then turned my attention to her. But, to my embarrassment, who should I find myself escorting, but a great, tall man, who said in the sweetest voice: "Thank you, I was never escorted by a young man across the street before; you are the kindest fellow I ever met." My lady friend was following us, and she giggled over the joke all the rest of the way home.—Exchange.

Egyptian Barber.

The ordinary village barber of Egypt bears a certain resemblance, in so far as his profession goes, to the barber-surgeon of ancient times in England. He is authorized by law, after having passed an examination, to perform vaccination, application of leeches, cupping, simple dressings, but is forbidden to order or prescribe medicines.

Famous Tennis Player in Striking Costume Worn at St. Valentine's Ball

Miss Claire Cassel

One of the most striking costumes worn at the St. Valentine's fancy dress ball held in New York City for the benefit of the Free Milk and Relief for Italy Fund was that of Miss Claire Cassel, the well known tennis player. She appeared as a jester.

A special meeting of the directors and stockholders of the Slipp-Gruenhagen Company was called to order by President F. H. Gruenhagen this 14 day of February, 1920 at 10 o'clock a. m., for the express purpose of changing the corporation name from "The Slipp-Gruenhagen Co." to the "Gruenhagen Company," all stock being represented.

SPECIAL MEETING

Resolution made by O. B. Johnson and seconded by Ed. Gruenhagen. Resolved that article one be so amended as to read "Gruenhagen Company" instead of "The Slipp-Gruenhagen Company," a copy thereof to be filed with the Secretary of State and Register of deeds and properly advertised, and such change to take effect March 1st, 1920.

The resolution was carried by a unanimous vote. F. H. GRUENHAGEN, President. A. T. FISHER, Secretary.

WOMAN'S REALM

THEY TOOK HER LITERALLY

But Probably Musical Comedy Star Did Not Mean Just What She Threatened.

A popular musical comedy star was taking her summer vacation in a New England village this year, and good naturedly agreed to participate in an "entertainment" to be given at the town hall for the benefit of local charities. She procured from New York one of the costumes from her last winter's show, and a fetching poster showing herself in that same costume. Soon after the poster was on display a delegation of village ladies waited upon the committee of gentlemen who were engineering the entertainment and protested against the costume of the poster, which was, in fact, that of the conventional "prince" of musical comedy, with a frank if pleasing display of silk-encased limbs.

"Let's send for Miss de Lancy and see if we can't fix it up," a committeeman suggested, and this was done. Now, besides being good natured, Miss de Lancy is high-spirited, and rather thought that the costume which had been good enough for her to appear in for some hundreds of times in New York would do for one appearance in Hixsville.

"There is no use talking," she announced with decision, "I'll appear in that costume or nothing."

There was a moment of horrified silence, then quick whispering among the lady delegation, and a moment later their protest against the proposed costume was withdrawn.—Philadelphia Ledger.

COSTS MONEY TO RUN ZOO

Pets of Londoners Are Really Expensive Propositions in the Feeding Line.

How much does it cost now to feed an elephant for a year? Two thousand dollars, say the officials of the London zoo. And a giraffe costs half as much. So that, with the increased prices of food, have come new problems for the keepers of menageries. The meat foods include beef, horse flesh, guinea pigs, rats, cats, mice, rabbits, frogs, snakes, fish, pigeons, ducks, sparrows, gentles, snails, ants and cod liver oil. The gazelles, buffaloes and antelopes must be provided with rock salt. They are fed on oats, bran, hay, green clover, together with carrots and potatoes. The birds are the most difficult to feed satisfactorily. Flamingoes, for instance, require soaked wheat, boiled shrimps and fish cut small. Some birds are fed largely on bullock's liver. This is cut into slices, boiled, then put through a mincing machine. The mince is dried in a slow oven and preserved. The dry mince is usually mixed with bran or pollard. Quantities of insects have to be kept in stock for the insect-eating birds. These are principally meal worms and gentles, which is the polite name for meat maggots. But for some birds flies and grasshoppers are required. The monkeys require fruit, such as bananas and apples, while the snakes must be fed on small animals, such as rabbits, mice and rats.

New Idea in Storing Coal

The ingenious plan of storing coal in carbonic acid gas, as undertaken at Dortmund, Germany, gives the safety from spontaneous ignition of under-water storage, while the container offers the convenience of the overhead bunker. Each of the three cylindrical bunkers constructed, with a capacity of 2,500 tons, has semi-spherical top and bottom, and three filling openings at the top, with three discharging outlets at the bottom. The lower outlets are gas tight when closed, but as the carbonic acid is much heavier than air the upper openings do not require being absolutely leak proof. A grab on a structural steel tower unloads the coal from a barge. The coal is dropped into a small hopper, and then fed to a push-plate conveyor, which is so placed that it may serve in filling or emptying the three bunkers. The small amount of carbonic acid gas that leaks out in removing coal can be readily replaced.

Fun for the Girl.

One evening, coming home from the theater on the street car with my lady friend, I stepped from the car and noticed an automobile coming up behind the car. I kept my eye on the automobile and took the elbow of the next person alighting after me, expecting it to be my friend. Still watching the motor, I led the elbow safely to the walk, and then turned my attention to her. But, to my embarrassment, who should I find myself escorting, but a great, tall man, who said in the sweetest voice: "Thank you, I was never escorted by a young man across the street before; you are the kindest fellow I ever met." My lady friend was following us, and she giggled over the joke all the rest of the way home.—Exchange.

Egyptian Barber.

The ordinary village barber of Egypt bears a certain resemblance, in so far as his profession goes, to the barber-surgeon of ancient times in England. He is authorized by law, after having passed an examination, to perform vaccination, application of leeches, cupping, simple dressings, but is forbidden to order or prescribe medicines.

MAY CHLOROFORM TREATY

President Wilson's controversy with the entente allies brings out at last another quite interesting feature of the situation regarding the treaty. It appears that the president's note to the supreme council of the League of Nations contained the threat that unless the action of the council was in harmony with the Wilson ideals he would take under consideration the withdrawal of the peace treaty from the senate. The supreme council sent its answer last night, in which it asserts that with reference to the matters complained about in the Wilson note the council is proceeding in the light of the changed conditions and opinions. It promises nothing different, although saying it views with consternation the threat of President Wilson to withdraw from the league of nations.

Later dispatches today may throw more light on the situation, but at this writing the suspicion seems justified that the president is planning to withdraw the treaty, take it out of the woodshed and chloroform it. It has involved him in serious dispute with the United States, with the supreme council of the League of Nations, and with many members of his own political party—besides having been instrumental in causing his own very serious physical breakdown. So far as the president is concerned it has been a hoodoo. If he now decides to chloroform it in

stead of killing it with an ax, we shall have to concede that his humane inclination still survives.—Superior Telegram.

IRA W. BOUCK FOR DELEGATE

Ira W. Bouck of Royaltown seeks to be one of the two delegates to represent this congressional district at the republication national convention to be held at Chicago in June. Thus far he is the only candidate from Morrison county. It will be remembered that he represented this legislative district for several terms at St. Paul and his record there was very satisfactory to the people of the district.

Mr. Bouck believes that Leonard Wood should be the nominee of the republican party because of his excellent record as an administrator, his high character and his long advocacy of the square deal principles of Theodore Roosevelt. The republican voters can, however, express their preference in this regard at the coming party caucus and this preference will be binding on the delegates.

WHY GO TO CHURCH?

"And the word of the Lord was precious" I Samuel 3:1.
 There are many things that could be mentioned as being sufficient reasons for going to church.
 Foremost of them should be the desire to hear from the appointed lips of the preacher the Word of God. And this we may be sure to get when we go to church. The sermon may, and often does lack in grammatical accuracy and in rhetorical flourish, but in 99 cases out of 100 the message throbs with divine power, because the preacher has come with the message directly from intimate communion with the source of that power.

recent issue of the St. Cloud Times.
The membership of the lodge now
numbers 750, which is equal to that
of St. Paul. At the last meeting of
the past exalted rulers of the lodge
65 new applications were read. The
lodge also hopes to pay up the bal-
ance of its debt on the home, am-
ounting to \$3,500. The home was
built seven years ago at a cost of
over \$40,000.

The St. Cloud lodge has voted to

Lumber Prices Reduced to Speed Construction Throughout Northwest

Quotations to Remain Until July 1,
Manufacturers Announce—Cuts
of From 10 to 30 Per Cent Ef-
fective—Maximum Sched-
ule Sought

Announcement of substantial price
reductions and assurances that there
will be no price increases between
now and July 1 have been made by
several of the largest lumber man-
ufacturers of the northwest. This
step by the lumbermen is taken to
induce much needed construction
work in the spring. The North-
western Lumbermen's association al-
ready had announced the federal
trade commission would be asked to
establish minimum prices on lumber.

Price cuts of from 10 to 30 per
cent are announced by the Weyer-
haeuser Sales company of Spokane,
distributing agents for 11 lumber
mills controlled by the Weyerhaeuser
sales agency. Retail distributors
for the Weyerhaeuser interests in
Minneapolis and the northwest are
the Thompson yards.

Letter Announces Cut
E. L. Carpenter, president of the
Shevlin, Carpenter & Clarke Co.,
lumber manufacturers and distribu-
ters, has sent a letter to customers
making prices in effect since Jan. 15,
good until July 1. The letter states
that the prices, thus stabilized are
anywhere from \$5 to \$25 per thou-
sand less than the general market.

The mills represented in the letter
to the lumber trade are the Shevlin-
Hixon company, Crookston Lumber
company, Nichols-Chisolm Lumber
company, and the Robert G. Chisolm
Lumber Company, Limited.

Among other things the letter
states:
"We regard the present price on
lath as detrimental to the best in-
terests of all branches of the trade
and as not defensible, either on the
basis of production and distribution
cost, or on the basis of fair market
value. Just as soon as our mills are
in operation, which will be about
April 1, and we have any quantity
of lath for distribution to the trade,
we expect to make a radical reduc-
tion in the price of lath and to dis-
tribute all we make in mixed cars,
with other lumber, to our regular
customers.

"The causes which are chiefly re-
sponsible for the present abnormal
conditions in the lumber market are:
First, under production; second, un-
wise taxation.

"These incidents show how
accidents contribute to limit
production and assist to entail
scarcity in articles which fur-
nish the basic foundation of
housekeeping or in words to
that effect, etc., etc., as Ring
Lardner would say.

STEWARDSHIP OF LIFE

Time Suggested for Sunday by In-
terchurch World Move-
ment

The month of March has been set
aside by the Inter-Church World
Movement as the month of ingather-
ing. This will culminate at Easter
when it is expected that many will
have been added to the church.

In the calendar of this movement
February was Stewardship month.
Most of the evangelical churches in
this movement took occasion to em-
phasize this great fact through their
pulpits.

Tomorrow the theme suggested is
the Stewardship of Life. The ques-
tion that arises from scores of young
men in the high schools and colleges
is "what am I to do with my life? How
am I to make it worth while?" He
who takes a selfish attitude here
and sells himself to the highest bid-
der will find at life's conclusion that
he has thrown himself away.

The principles of stewardship are
expressed as follows: God is the
owner of all; man is a steward and
must account for all that he has;
acknowledgment of stewardship is
made by devoting a definite propor-
tion of income to the Lord's service.

Even more fundamental than the
stewardship of material things is that
of life. There must be an account-
ing made of how we have used our
time, talents, energy and every fac-
ulty of mind and soul.

Hundreds of pulpits of the different
denominations have taken occasion to
deal with these sound principles of
faith during the past month. The
duty of the coming month is that of
bringing the matter of loyalty to
Christ and the church squarely be-
fore the people

BRAINERD'S ODDEST STORIES

This is a story regarding the
sacrifice of a dozen eggs.

Prof. Wm. P. Bartsch was at
Pequot giving some music les-
sons and on his way home came
across a dozen fresh eggs which
he bought for 48 cents. Scarcely
ly had the eggs been placed in
a bag when he heard the freight
whistle and saw it meander
through town.

It did not stop. Dismayed at
the thought of being left in
Pequot, he made a grab for the
cabbie, caught the railing, but
smashed his beloved eggs into
a general omelet which splash-
ed itself all over his clothes.
Nevertheless, he maintained his
grip on paper bag as he fell far
from the speeding train.

When he got up and brushed
cinders from his clothes and egg
shells and the must away, the
contrary train stopped and
stood still for a quarter of an
hour, while he utilized to buy
another lot of eggs.

Shampooing the eggs from
his clothes made another story
and caused about as much as
the incident of the man who
was hit with a can of cream at
the depot and bathed in its en-
veloping folds of whiteness.

These incidents show how
accidents contribute to limit
production and assist to entail
scarcity in articles which fur-
nish the basic foundation of
housekeeping or in words to
that effect, etc., etc., as Ring
Lardner would say.

OUCH! LAME BACK

Rub Backache, Lumbago, Soreness and
Stiffness Away—Try This!

Back hurt you? Can't straighten
up without feeling sudden pains, sharp
aches and twinges? Now listen!
That's lumbago, sciatica or maybe
from a strain, and you'll get blessed
relief the moment you rub your back
with soothing, penetrating "St. Jacobs
Oil." Nothing else takes out sore-
ness, lameness and stiffness so quickly.
You simply rub it on and out comes
the pain. It is perfectly harmless and
doesn't burn or discolor the skin.
Limber up! Don't suffer! Get a
small trial bottle from any drug store,
and after using it just once, you'll
forget that you ever had backache,
lumbago or sciatica, because your back
will never hurt or cause any more
misery. It never disappoints and has
been recommended for 60 years.

Announcement of substantial price reductions and assurances that there will be no price increases between now and July 1 have been made by several of the largest lumber manufacturers of the northwest. This step by the lumbermen is taken to induce much needed construction work in the spring. The Northwestern Lumbermen's association already had announced the federal trade commission would be asked to establish minimum prices on lumber.

Price cuts of from 10 to 30 per cent are announced by the Weyerhaeuser Sales company of Spokane, distributing agents for 11 lumber mills controlled by the Weyerhaeuser sales agency. Retail distributors for the Weyerhaeuser interests in Minneapolis and the northwest are the Thompson yards.

Letter Announces Cut

E. L. Carpenter, president of the Shevlin, Carpenter & Clarke Co., lumber manufacturers and distributors, has sent a letter to customers making prices in effect since Jan. 15, good until July 1. The letter states that the prices, thus stabilized are anywhere from \$5 to \$25 per thousand less than the general market.

The mills represented in the letter to the lumber trade are the Shevlin-Hixon company, Crookston Lumber company, Nichols-Chiselm Lumber company, and the Robert G. Chiselm Lumber Company, Limited.

Among other things the letter states:

"We regard the present price on lath as detrimental to the best interests of all branches of the trade and as not defensible, either on the basis of production and distribution cost, or on the basis of fair market value. Just as soon as our mills are in operation, which will be about April 1, and we have any quantity of lath for distribution to the trade, we expect to make a radical reduction in the price of lath and to distribute all we make in mixed cars, with other lumber, to our regular customers."

"The causes which are chiefly responsible for the present abnormal conditions in the lumber market are: First, under production; second, unwise taxation."

HIRAM JOHNSON MEETING

The Gardner auditorium has been engaged for Saturday, March 6th, for a political meeting in the interest of Senator Hiram Johnson, of California, in his candidacy for the republican nomination for the presidency. The speaker of the evening will be Congressman Schall, of Minnesota. Johnson's main plank is the defeat of the League of Nations.

STEWARDSHIP OF LIFE

Theme Suggested for Sunday by Interchurch World Movement

The month of March has been set aside by the Inter-Church World Movement as the month of ingathering. This will culminate at Easter when it is expected that many will have been added to the church.

In the calendar of this movement February was Stewardship month. Most of the evangelical churches in this movement took occasion to emphasize this great fact through their pulpits.

Tomorrow the theme suggested is the Stewardship of Life. The question that arises from scores of young men in the high schools and colleges is "what am I to do with my life? How am I to make it worth while?" He who takes a selfish attitude here and sells himself to the highest bidder will find at life's conclusion that he has thrown himself away.

The principles of stewardship are expressed as follows: God is the owner of all; man is a steward and must account for all that he has; acknowledgment of stewardship is made by devoting a definite proportion of income to the Lord's service.

Even more fundamental than the stewardship of material things is that of life. There must be an accounting made of how we have used our time, talents, energy and every faculty of mind and soul.

Hundreds of pulpits of the different denominations have taken occasion to deal with these sound principles of faith during the past month. The duty of the coming month is that of bringing the matter of loyalty to Christ and the church squarely before the people.

BRAINERD'S ODDEST STORIES

This is a story regarding the sacrifice of a dozen eggs. Prof. Wm. P. Bartsch was at Pequot giving some music lessons and on his way home came across a dozen fresh eggs which he bought for 48 cents. Scarcely had the eggs been placed in a bag when he heard the freight whistle and saw it meander through town.

It did not stop. Dismayed at the thought of being left in Pequot, he made a grab for the package, caught the railing, but smashed his beloved eggs into a general omelet which splashed itself all over his clothes.

Nevertheless, he maintained his grip on paper bag as he fell far from the speeding train. When he got up and brushed cinders from his clothes and egg shells and the mess away, the contrary train stopped and stood still for a quarter of an hour, which he utilized to buy another lot of eggs.

Shampooing the eggs from his clothes made another story and caused about as much as the incident of the man who was hit with a can of cream at the depot and bathed in its enveloping folds of whiteness.

These incidents show how accidents contribute to limit production and assist to entail scarcity in articles which furnish the basic foundation of housekeeping or in words to that effect, etc., etc., as Ring Lardner would say.

Volunteers to Try Mars
Trip When Prof. Goddard
Has His Rocket Ready

Captain Claude R. Collins

When Professor Robert H. Goddard of Clark College has his rocket ready to shoot to Mars, Captain Claude R. Collins is ready to make a flight in it. The daring flyer is president of the Aviator's Club of Pennsylvania and holder of an international airplane pilot's license. Captain Collins makes certain reservations in his offer. He requires that he be allowed to assist in planning the rocket and the details of the flight, that communication shall first be established with Mars with an experimental rocket; that a board of ten prominent scientists agree to the practicability of the test, and that his life shall be insured for \$10,000.

OUCHI LAME BACK
Rub Backache, Lumbago, Soreness and
Stiffness Away—Try This!

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get blessed relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin. Limber up! Don't suffer! Get a small trial bottle from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.

Uganda's Fauna.

Fauna of Uganda is probably unequalled in variety and importance in any other country in the world. On the lakes are found a great number of water birds, storks, cranes, herons, flamingoes, geese, and ducks, but the finest are perhaps the huge eagles, which prey on the fish, of which there is a great variety. Hippopotami and crocodiles haunt all the waters in the country. On land, elephants are found in large numbers; buffaloes are found near the swamps; wild boars, hyenas, leopards, and wildcats infest the woods, where smaller creatures such as squirrels, gray parrots, monkeys, and guinea fowl are found. In the wild and more open country to the north there are rhinoceroses, zebras, ostriches and many varieties of antelope.

INCOME TAX RETURNS DUE

Business Men, Farmers and Wage Workers Must File Schedules of Income for 1919.

MARCH 15 LAST FILING DATE.

Net Incomes of \$1,000 or Over, if Single; or \$2,000 or Over if Married, Must Be Reported.

The Income Tax imposed by Act of Congress on earnings of the year 1919 is now being collected.

Returns under oath must be made on or before March 15 by every citizen and resident who had a net income for 1919 amounting to:

\$1,000 or over, if single; or if married and living apart from wife (or husband); or if widowed or divorced, \$2,000 or over, if married and living with wife (or husband).

The status of the person on the last day of the year fixes the status for the year with respect to the above requirements.

Under any of these circumstances a return must be made, even though no tax is due.

Husband and wife must consider the income of both, plus that of dependent minor children, in meeting this requirement; and, if sufficient to require a return, all items must be shown in a joint return or in separate returns of husband and wife.

A single person with minor dependents must include the income of such dependents.

A minor who has a net income of \$1,000 or more is not considered a dependent, and must file a separate return.

Personal returns should be made on Form 1040A, unless the net income exceeded \$5,000, in which case Form 1040 should be used.

Residents of Minnesota should file their returns with, and make payments of Income Tax to, Edward J. Lynch, Collector of Internal Revenue, St. Paul, Minn.

How to Figure Income.

The best way to find out whether one must file a return is to get a Form 1040A and follow the instructions printed on it. That form will serve as a reminder of every item of income, and if a return is due it tells how to prepare and file it.

If in doubt on any point as to income or deductions, a person may secure free advice and aid from the nearest Internal Revenue office.

Guesswork, estimates and other hit-or-miss methods are barred when a person is making out his Income Tax return. Accuracy and completeness must be insisted upon. The return is a sworn statement. As such it must be thorough and accurate.

Salaried persons and wage earners must ascertain the actual compensation received. Overtime, bonuses, shares in the profits of a business, value of quarters and board furnished by the employer and other items which are compensations for services must be included.

It must be borne in mind that compensation may be paid in other forms than in cash. A bonus paid in Liberty Bonds is taxable at the market value of the bonds. A note received in payment for services is taxable income at its face value, and the interest upon it is also taxable.

Other Returns Due.

Every partnership doing business in the United States must file a return on Form 1065; and every personal service corporation must file a similar return.

Corporations must file annual returns on Form 1120.

Trustees, executors, administrators and others acting in a fiduciary capacity are required to file returns. In some cases, Form 1041 is used; in others, Form 1040; and still others, returns on both forms are required.

Information returns, on Forms 1099 and 1096, must be filed by every organization, firm or person who paid, during 1919, an amount of \$1,000 in salary, wages, interest, rent, or other fixed or determinable income to another person, partnership, personal service corporation or fiduciary. These information returns should be forwarded directly to the Commissioner of Internal Revenue (sorting division), Washington, D. C.

INCOME TAX IN NUTSHELL

WHO—Single persons who had net income of \$1,000 or more for the year 1919.

Married couples who had net income of \$2,000 or more.

WHEN—March 15, 1920, is final date for filing returns and making first payments.

WHERE—Collector of Internal Revenue for District in which the person resides.

HOW—Full directions on Form 1040A and Form 1040; also the law and regulations.

WHAT—Four per cent normal tax on taxable income up to \$4,000 in excess of exemption. Eight per cent normal tax on balance of taxable income. Sur-tax, from one per cent to sixty-five per cent on net incomes over \$5,000.

PAIN IN BACK

Boy River, Minn.—"I have used Dr. Pierce's medicine with good results in my family for years. Last winter I was taken with La Grippe and it left me run down and with pains in my hips and back. I took different medicines without getting any benefit. At last I sent and got some of Dr. Pierce's Anuric and took it and am feeling well and doing a good day's work. When I commenced taking the Anuric Tablets I could hardly get out of the bed, felt as though a knife was sticking in my back."—A. C. BLODGETT, Box 2.

KIDNEYS AND BLADDER

Inland, S. Dak.—"I can recommend Dr. Pierce's Pleasant Pellets and Anuric (anti-uric-acid) Tablets as grand medicines. I was troubled with my stomach and also had weakness of the bladder and I started taking Dr. Pierce's Anuric Tablets and Pleasant Pellets and I believe they have cured me of my trouble. I think my stomach trouble was dyspepsia. The 'Pleasant Pellets' are the best regulator of the stomach and bowels I have ever used and I would recommend them highly. I have used four bottles of Anuric Tablets and four vials of Pleasant Pellets."—E. A. EASTMAN.

RHEUMATISM, FEET SWOLLEN

Stillwater, Minn.—"I feel that it is my duty to write about the wonderful results I received from the use of 'Anuric.' I was suffering from kidney and bladder trouble, scalding, rheumatism, also my feet and ankles swelled so that at times I could not walk without assistance. Had taken several different kinds of kidney remedies and all failed. Finally I sent to Dr. Pierce for a package of his new discovery, 'Anuric' (anti-uric-acid), which I received by mail in tablet form. I soon got better and am convinced that this popular new medicine is good. I wish to recommend it to my neighbors and everybody suffering from kidney troubles."—MRS. M. J. SARGENT, 218 E. Elm St.

His Prior Right.

A major in the stevedore regiment employed one of his men to take care of his horses and do little chores around the yard. One day Sam came into the major's office, and he was some agitated man. After he had calmed he exclaimed, "Major, I want to be relieved from this job right now!"

The major asked him why he didn't want the job any more.

"Major, that job is good enough, but I just can't seem to get along with yo' all's wife. Seems every time I goes down to that horse house she puts me to doin' all kinds of chambermaid work and a-nagin' at me all a thier time, too."

Then it was the major's turn. "Sam, I've been living with that woman for thirty-odd years now, and if there is going to be anyone relieved it's going to be me."—William Rea Black, U. S. A., in Judge.

Swift Ships for Pacific.

Sharp competition between the Canadian Pacific ocean services and

the Nippon Yusen Kaisha bids fair materially to reduce the time of trans-Pacific travel. The former is adding a 22,000-ton passenger steamer to the two now in the service, the running time of which is nine days from Vancouver to Yokohama and 17 days to Hongkong.

The Japanese company has three boats under construction, each of about 30,000 tons, and it expects that these will make the run from Yokohama to Seattle in eight days.

Out West.

"We want some rope." "I have some at \$4 a pound, also some at \$6. What do you want it for?"

"To lynch a profiteer."

"Take your choice at 40 cents."—Louisville Courier-Journal.

New Process in Sculpture.

A process for producing bas-reliefs by photography is the fruit of the invention of an Italian scientist. The basis of the invention is the property possessed by a film of chromium gelatin of swelling in proportion to the intensity of light falling upon it. The swelling is greater with a low than with a high intensity, so that the light passing through a photographic negative produces upon a chromium gelatin plate a positive in distinct relief. The transparency of an ordinary negative, however, is not truly proportional to the relief of the original model, but by an ingenious automatic device involving double exposure this difficulty is avoided and a negative is obtained having its lights and shades correctly graded to produce the effect in bas-relief.

Catarrhal Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and it is entirely closed. Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

Will give One Hundred Dollars for any case of Catarrhal Deafness cured by Hall's Catarrh Medicine. Circulars free. All druggists, etc. J. C. Catarrh & Co.

INCOME TAX RETURNS DUE

Business Men, Farmers and Wage Workers Must File Schedules of Income for 1919.

MARCH 15 LAST FILING DATE.

Net Incomes of \$1,000 or Over, if Single; or \$2,000 or Over if Married, Must Be Reported.

The Income Tax imposed by Act of Congress on earnings of the year 1919 is now being collected.

Returns under oath must be made on or before March 15 by every citizen and resident who had a net income for 1919 amounting to:

\$1,000 or over, if single; or if married and living apart from wife (or husband); or if widowed or divorced. \$2,000 or over, if married and living with wife (or husband).

The status of the person on the last day of the year fixes the status for the year with respect to the above requirements.

Under any of these circumstances a return must be made, even though no tax is due.

Husband and wife must consider the income of both, plus that of dependent minor children, in meeting this requirement; and, if sufficient to require a return, all items must be shown in a joint return or in separate returns of husband and wife.

A single person with minor dependents must include the income of such dependents.

A minor who has a net income of \$1,000 or more is not considered a dependent, and must file a separate return.

Personal returns should be made on Form 1040A, unless the net income exceeded \$5,000, in which case Form 1040 should be used.

Residents of Minnesota should file their returns with, and make payments of income tax to, Edward J. Lynch, Collector of Internal Revenue, St. Paul, Minn.

How to Figure Income.

The best way to find out whether one must file a return is to get a Form 1040A and follow the instructions printed on it. That form will serve as a reminder of every item of income, and if a return is due it tells how to prepare and file it.

If in doubt on any point as to income or deductions, a person may secure free advice and aid from the nearest Internal Revenue office.

Guesswork, estimates and other hit-or-miss methods are barred when a person is making out his Income Tax return. Accuracy and completeness must be insisted upon. The return is a sworn statement. As such it must be thorough and accurate.

Salaried persons and wage earners must ascertain the actual compensation received. Overtime, bonuses, shares in the profits of a business, value of quarters and board furnished by the employer and other items which are compensations for services must be included.

It must be borne in mind that compensation may be paid in other forms than in cash. A bonus paid in Liberty Bonds is taxable at the market value of the bonds. A note received in payment for services is taxable income at its face value, and the interest upon it is also taxable.

Other Returns Due.

Every partnership doing business in the United States must file a return on Form 1065; and every personal service corporation must file a similar return.

Corporations must file annual returns on Form 1120.

Trustees, executors, administrators and others acting in a fiduciary capacity are required to file returns. In some cases, Form 1041 is used; in others, Form 1040; and still others, returns on both forms are required.

Information returns, on Forms 1099 and 1096, must be filed by every organization, firm or person who paid, during 1919, an amount of \$1,000 in salary, wages, interest, rent, or other fixed or determinable income to another person, partnership, personal service corporation or fiduciary. These information returns should be forwarded directly to the Commissioner of Internal Revenue (sorting division), Washington, D. C.

PAIN IN BACK

Boy River, Minn.—"I have used Dr. Pierce's medicine with good results in my family for years. Last winter I was taken with La Grippe and it left me run down and with pains in my hips and back. I took different medicines without getting any benefit. At last I sent and got some of Dr. Pierce's Anuric and took it and am feeling well and doing a good day's work. When I commenced taking the Anuric Tablets I could hardly get out of the bed, felt as though a knife was sticking in my back."—A. C. BLODGETT, Box 2.

KIDNEYS AND BLADDER

Inland, S. Dak.—"I can recommend Dr. Pierce's Pleasant Pellets and Anuric (anti-uric-acid) Tablets as grand medicines. I was troubled with my stomach and also had weakness of the bladder and I started taking Dr. Pierce's Anuric Tablets and Pleasant Pellets and I believe they have cured me of my trouble. I think my stomach trouble was dyspepsia. The 'Pleasant Pellets' are the best regulator of the stomach and bowels I have ever used and I would recommend them highly. I have used four bottles of Anuric Tablets and four vials of Pleasant Pellets."—L. A. EASTMAN.

RHEUMATISM, FEET SWOLLEN

Stillwater, Minn.—"I feel that it is my duty to write about the wonderful results I received from the use of 'Anuric.' I was suffering from kidney and bladder trouble, scalding, rheumatism, also my feet and ankles swelled so that at times I could not walk without assistance. Had taken several different kinds of kidney remedies and all failed. Finally I sent to Dr. Pierce for a package of his new discovery, 'Anuric' (anti-uric-acid), which I received by mail in tablet form. I soon got better and am convinced that this popular new medicine is good. I wish to recommend it to my neighbors and everybody suffering from kidney troubles."—MRS. M. J. SARGENT, 218 E. Elm St.

His Prior Right.

A major in the stevedore regiment employed one of his men to take care of his horses and do little chores around the yard. One day Sam came into the major's office, and he was some agitated man. After he had saluted he exclaimed, "Major, I want to be relieved from this hyar job right now!"

The major asked him why he didn't want the job any more.

"Major, that thar job is good enuff, but I just can't seem to get along with yo' all's wife. Seems every time I goes down to that thar house she puts me to doin' all kinds of chambermaid work and a-naggin' at me all a thar time, too."

Then it was the major's turn. "Sam, I've been living with that woman for thirty-odd years now, and if there is going to be anyone relieved it's going to be me."—William Rea Black, U. S. A., in Judge.

Swift Ships for Pacific.

Sharp competition between the Canadian Pacific ocean services and

the Nippon Yusen Kaisha bids fair materially to reduce the time of trans-Pacific travel. The former is adding a 22,000-ton passenger steamer to the two now in the service, the running time of which is nine days from Vancouver to Yokohama and 17 days to Hongkong.

The Japanese company has three boats under construction, each of about 30,000 tons, and it expects that these will make the run from Yokohama to Seattle in eight days.

Out West.

"We want some rope."

"I have some at \$4 a pound, also some at \$6. What do you want it for?"

"To lynch a profiteer."

"Take your choice at 40 cents."—Louisville Courier-Journal.
